### About Me

I am a passionate individual who is deeply interested in exploring new technologies and discovering opportunities to learn and grow. Currently, I am striving to become proficient in full-stack development and am fully committed to achieving my career aspirations in this field. With my dedication and focus, I am determined to gain a thorough understanding of coding and leverage this knowledge to build a successful career.

### Projects

Social Mate

 [Demo](#)

Designed and implemented a website aimed at reconnecting individuals with their former schoolmates by utilizing React.js for the front-end, PostgreSQL and MongoDB for the database, and Node.js for the back-end development.

Your System

 [Demo](#)

Developed a comprehensive system for managing employee data as a company manager, utilizing Node.js, Express.js, and MongoDB with Mongoose for the back-end, and React.js for the front-end.
